

Recipe for Champagne Shimmer Paint Sparkle Spray

I use a 4 oz spray bottle that I purchased at Amazon.

https://www.amazon.com/gp/product/B072RVGG93/ref=oh_aui_search_asin_title?ie=UTF8&psc=1

(This is for 24 bottles but I think you can order less).

I empty the whole bottle of Champagne Shimmer Paint (#147044) into the spray bottle.

Then put some alcohol into the shimmer paint bottle – shake and empty into the spray bottle. Repeat. Repeat. Repeat until every bit of the shimmer paint is out of that little bottle! I also dumped the ball bearing into the spray bottle also.

Then fill the rest of the bottle with alcohol – 70% or 90% - either works!

Shake, shake, shake & spray! Do place whatever you are spraying into a protective box or someplace where any overspray won't ruin anything around it.

Enjoy that sparkle!!
