To order any of the supplies used in this tutorial contact me at sharon@inkup.us or order from [my store here!](#)

Supplies:

- Stamps: Plentiful Plants #155693
- Ink: Cinnamon Cider #153114, Garden Green #147089
- Paper: Basic White #159276, Garden Green #102584, Crumb Cake #120953
- Designer Paper: Bloom Where You're Planted #155696
- Tools & Accessories: Cut & Emboss Machine #149653, Bark 3D Embossing Folder #155431, Paper Trimmer #152392, Stampin' Seal #152813, Mini Glue Dots #103683, Early Espresso 1/4" Faux Suede Trim #152472, 2021-2023 In Color Jewels #155571

Measurements:

- Card Base: Garden Green 8 1/2" x 5 1/2"
- Cardstock #2: Crumb Cake 5" x 4"
- Cardstock #3: Basic White 5" x 4"
- Designer Series Paper: 2 pieces of desired print measuring 1 3/4" x 2 1/2"

Instructions:

- Take Garden Green Card Base. Score on the 8 ½” side at 4 ¼”.
- On the 5 ½” side, make a pencil mark at 2 ¾”. On the 8 ½” side, make a pencil mark 2” down from the top on both sides.
- Score from the 2 ¾” pencil mark out to the 2” pencil mark on the sides. Then score from the 2 ¾” mark down to the 4 ¼” score mark on both sides.
- Fold on all the score lines, creating a triangular center portion with flaps on either side.
- Take your 2 rectangles of DSP. Cut one diagonally corner to corner with the design you want FACE UP; cut the second one diagonally with the design you want FACE DOWN.
- Adhere two of the triangles of DSP on the corresponding small flaps, using Stampin’ Seal. You will have 2 triangles of DSP left in case you wish to make a second card.
- If desired, use adhesive to glue the flaps in place to make the card less cumbersome when opening and closing. This will help the card keep its shape, but does not have to be done.
- Take your Basic White piece of cardstock measuring 5” wide across the top and 4” tall. Make a pencil mark on the bottom of each piece at 2 ½”. Use your paper trimmer to cut from the top corners diagonally down to the center pencil mark, forming an inverted triangle. Repeat this step for the piece of Crumb Cake cardstock.
- Take the 2 smaller triangular pieces of Basic White from the step above and emboss them using the Bark 3D Embossing Folder and the Cut & Emboss Machine. Glue these two pieces down on the inside bottom corners of your Garden Green card base.
- Invert the White Triangle piece so that the top measures 5” across. Stamp a flower pot from the Plentiful Plants stamp set in Cinnamon Cider Ink, and stamp a greenery piece in Garden Green just above the stamped flower pot. Glue this stamped panel to the front of your Garden Green Card base, filling the triangular center portion. Adhere a bow made of the Early Espresso Faux Suede trim using a Glue Dot; add 3 of the 2021-2023 In Color Jewels as desired to card front.
- Invert the Crumb Cake Triangle piece so that the top measures 5” across. Stamp “A little note with the biggest thanks’ at the top in Garden Green. Adhere this stamped panel to the inside of the card, fitting perfectly in between the previously glued embossed panels.
- If desired, stamp your envelope with the same plant and flower pot you used on the front of the card.
