- Cardstock #4: Basic White – 4" x 5-1/4" for inside
- Cardstock #5: Scrap Basic White to stamp and punch the penguin
- Cardstock #6: Scrap Calypso Coral to punch penguin feet.
- Designer Series Paper: 4" x 5-1/4"

Instructions:

- On a scrap of Basic White, stamp the penguin (I used my Stamparatus so I could get a solid black for the penguin). Punch with the Penguin punch. Stamp the bow tie with Fresh Freesia. Stamp the beak with Calypso Coral. Punch out two feet from Calypso Coral scrap and glue them on.
- Using the framelits from the Seasonal Labels Dies, die cut the middle sized one from Fresh Freesia and the smaller one from Basic White.
- Using the snowflake stamp, stamp snowflakes all over the Fresh Freesia framelit.
- Stamp the 'hill' on the Basic White framelit. Then stamp the tree 'on the hill'. Then stamp some snowflakes above the hill.
- Stamp a greeting at the bottom of the Basic White framelit.
- Assemble: Glue the DSP layer onto the card front; using dimensionals, affix the large Fresh Freesia framelit in the center of the card front; affix the Basic White framelit with dimensionals in the center of the Fresh Freesia framelit; affix the penguin with dimensionals to the front of the Basic White framelit.
- Decorate the Basic White layer for the inside and glue in place to the inside of the card.
- And don't forget to decorate your envelope! ☺
